ERICESON'S CARORIC ENGINE.—The Ericeson caloric Exicason's Calonic Engine.—The Ericsson caloric engine which failed in its application as a motor for propelling vessels across the ocean, has nevertheless proved a success in its adaptation to mechanical purposes. Several have recently been purchased for printing presses in New York and other cities; others are in use for driving pumps; others again are employed to work hoisting apparatus on vessels and in stores. Four or five machine shops are at present engaged in the manufacture of these engines, and the demand for them is fully equal to the supply. It is gratifying to know that after all his toil, and care, and disappointments, and sacrifices, Capt. Ericsson has achieved this splended success.

Any Man who professes to understand all trades and sciences, assumes to impose an absurdity upon the public. On the same principle, any medicine which pro fesses to cure all diseases, is unworthy the slightest confidence, and should at once be denounced as a quack nostrum. The Grafenberg Family Medicines do not assume to cure all diseases with one remedy. They have eiveen different medicines, each adapted to its peculiar disease; and time has proved, be yond a question, the efficacy and certainty of these preparations.
